

## SESI Environmental Policy

SESI Refill LLP is committed to leading the industry in minimising the impact of its own activities and the activities of its partners on the environment.

Under the terms of the policy we will:

- Measure our impact on the planet and set targets to improve.
- Conduct research to keep up with important issues such as farming, human rights, animal rights, food justice, forestry protection, personal health.
- Practice transparency. We are not complaisant and dig deep for uncomfortable truths about any products, especially our own.
- Ensure all products are vegan, cruelty free and biodegradable.
- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the selection and use of our fleet vehicles and the sourcing of our power requirements.
- Constantly update our route planning systems to minimize our use of energy within logistics and our delivery services
- Actively promote reuse over recycling both internally and amongst our customers and suppliers.
- Promote recycling where reusable products are at end of life or not available.
- Source and promote a product range to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.
- Make sure that our policies and services are developed in a way that is complimentary to this policy
- Identify and provide training, advice and information for staff and encourage them to develop new ideas and initiatives
- Developing inhouse tools and equipment from reclaimed materials as much as possible
