

# Biological Laundry Liquid - Unfragranced

Eco-biological laundry liquid Contains a blend of enzymes that helps remove soiling. This refined formula is the best way that we have found, without greenwashing, to reduce carbon footprint. The reduction of water in the formula which increases concentration, reduces weight and in turn carbon footprint in transportation of the liquids.

Ingredient	What is it?	What does it do?
Aqua	Water	Holds components in solution
Sodium Laureth Sulfate	Anionic Surfactant (RSPO)	Solubilises grease and oils
Sodium Citrate	Builder	Reduces water hardness and enhances cleaning performance
Sodium Carbonate	Builder	Reduces water hardness and enhances cleaning performance
Glycerine	Humectant	Provides a moisturising effect
Citric Acid	pH adjuster	Controls acidity / alkalinity
Subtilisin	Enzyme	Biological agent that breaks down stains
Lyase, pectate	Enzyme	Biological agent that breaks down stains
amylase, $\alpha$ -	Enzyme	Biological agent that breaks down stains

Disubstituted  
Alaninamide

Stabilising agent

Maintains the stability of enzymes
